Environmental Policy Statement

Halcyon Drives is fully committed to comply with the requirements of the ISO 14001: 2015 Standard and to continuously improve the effectiveness of the Environmental Management System. Halcyon Drives views the environment as an aspect of the business that will be managed and consistent with other company policies, (e.g., Quality and Occupational Health and Safety).

This Environmental Policy commits us to:

1.   Comply with all applicable environmental legislative and other relevant requirements.

2.   Switch to sustainable energy sources for our main head office manufacturing facility and vehicles.

3.   Monitor all business activities and their resource usage to identify opportunities to minimize waste.

4.   The continual improvement of our environmental performance and the prevention of pollution including life cycle perspective.

This policy provides the framework for setting and reviewing environmental objectives and targets that can be measured and analysed. Our policy will be communicated to all employees and suppliers working on our behalf to ensure that they are aware of our environmental policy.

This policy is available to our customers, suppliers and to the public through our web site. It will be reviewed annually for continuing suitability during formal management reviews.

Chris Wainman
Managing Director

Significant Environmental Aspects: **Energy, and fuel generated from fossil fuels**
Energy generated from sustainable sources
Natural Resources: Raw materials, Components and Products
Waste generated from our business activities
